Authorization for this examiner's amendment was given in a telephone interview with Mr. Steven Fischman (Reg. No., 34,594) on September 23, 2005.

The application has been amended as follows:

Please amend claims 1, 2, 13 and 14 as follow:

Please amend claims 15 and 16 as follow:

MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. Allowable Subject Matter

4. Claims 1-26 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The instant invention defines an apparatus/method/program storage device for selecting one of plurality of candidate data corresponding to watermark data embedded into object data to embed the selected one candidate data as the watermark data as recited in independent claims 1, 2, 13, 14, 15, and 16. The claimed invention distinguishes over the prior art by the manner in which the variation indication data generation means is disclosed. The claimed combination allows for improving a method to embed the selected one candidate data as the watermark data. Embedding watermark is conventional in the art. However, the prior art of record fails to teach a variation indication data generation means for generating a plurality of variation indication data indicating variation between said object data and each of the object data obtained by embedding each of said plurality of candidate data, each of said plurality of candidate data comprised of a different clock pattern having pixel element values adjusted from a selected basic pattern associated with an individual object block and having a same structure as said object block. These elements in combination with all of the other elements of the claims are not taught or fairly suggested in the prior art of record. The dependent claims 3-12 and 17-26 are allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
